## ACTIVITY REPORT

A TWO-DAY WORKSHOP ON “ADVANCED MANUFACTURING (3D Printing)”  
28<sup>th</sup> -29<sup>th</sup> January 2022

**Target Group** : All B.Tech Students  
**No. of Participants** : 122  
**Resource Persons** : Sri .Navdeep Singh -CEO (M.Tech ,NIT Hamirpur)  
Sri.Akshay Sharma -(Ph.D scholar at IIT Ropar)  
Sri.Subhajith Roy - (Ph.D scholar at NIT Allahabad)

**Coordinators:** 1. Sri.A.HARIKRISHNA, Assistant Professor, MED  
2. Sri K.SURESH KUMAR, Associate Professor, MED

**Organizing Department** : Mechanical Engineering in association with TR 3D CREATIONS, Faridabad,  
Haryana, India.

**Plat Form** : Off line

**Description** :

In the beginning **Mr. Subhajith Roy** gave the introduction on 3D Printing and its various applications in the today's world. Later he explained the different types of 3D Printing Technologies and its day to day application in today's time. He explained why one should opt for 3D printing instead of any other technology. He guided the students regarding the broad future career they have in this vast field and as it is exponentially growing at a very high rate in the last 10 years. Mr.Akshay Sharma motivated the students to perform “Hands on Activity” on the 3D Printer so that every student has a visualized knowledge of 3D Printers and its working procedure. He later gave the students a live problem to which he told them to perform brain storming together and works out different ideas for the same and gave viable Design solutions and the best solution was awarded a prize.

After the theoretical Session, the Designing and Printing session was carried out by **Mr. Navdeep Singh**. He helped the students in visualizing, creating, brainstorming different layouts on Solid works. He was helping the students throughout the seminar and no unattended doubts were left as each single doubt was cleared by both speakers. He helped the students in designing models on Solid works and later converts it into file containing G-CODES & M-CODES & later applies those so that 3D Print of the layout they made on Solid Works could be printed via the 3D Printers they bought with them. Different layouts were printed and now the students are well equipped with the knowledge that if in future they need to make 3D Print via 3D Printing technology, they won't hesitate. Both the sessions were very interactive and students participated enthusiastically.

As per the feedback received from the participants it was very good learning experience, the lecture helped them in understanding the 3D PRINTING TECHNOLOGY.
