Description	<p>Patriotism is all about the love, loyalty, and respect towards one's motherland. Ideally, the sense of patriotism should be instilled right at the young ages it goes a long way in raising responsible citizens of tomorrow. This way, when the kids grow up, they understand the value of their nation and remain driven towards doing more good for the same. Swami Vivekananda once said, 'My faith is in the younger generation, the modern generation and out of them will come to my workers. This quote describes the impact the Youth can have on society. More than 60% of the Youth helped Germany win the first world war far better or the worst. The mission to make the first person walk on the moon consisted of more than 80% of the Youth who helped in planning the whole mission. Likewise, Indian Youth also played an important role to make our country free from British rule. Youth has the power to change the world. When the Youth is united, we can make the world a better place to live, and when we</p>	

are divided, we also have the power to destroy the world.

Youth is the most dynamic and important segment of the population in any country. Statistics show that the developing countries which have a huge youth population could be seeing tremendous growth in all the sectors of the countries provided they invest in young people's education, health and protect and guarantee their rights. It is believed that today's young minds and tomorrow's leaders, creators, builders, and innovators.
