Department of Electrical & Electronics Engineering Activity Report

Name of the Activity	: Skill Course (42Hrs)
Title of the Activity	: SCI Lab
Date(s) of the Activity	: 22.11.2021 (Monday) to 27.11.2021 (Saturday)
Scheduled Time	: 9.00AM - 5.00PM
Resource Person(s)	: Shaik Rubeena (APSSDC Member)
Target Audience	: B.Tech V Semester Students
No. of Students Attended	: 20
Student Coordinator(s)	: P. Tharaka Ramudu & M. Rutheesh Kumar
Venue of the Event	: Python Programming Lab, Main Building

Activity Description:

Scilab is free and open source software for numerical computation providing a powerful computing environment for engineering and scientific applications. Mainly it is used for data analysis and computation. It is also an alternative for MATLAB as this is not open-source. Mostly it can be used to test algorithms or to perform numerical computations. Scilab also provides many numerical methods and is very easy to use even for people without prior programming experience. Scientific Programming provides a forum for research results in, and practical experience with, software engineering environments, tools, languages, and models of computation aimed specifically at supporting scientific and engineering computing.

Head of the Department, faculty & participants of the workshop inaugurated the workshop with all good spirit. Resource person began the first day Introduction to SCILab followed by advantages, dis-advantages, some of general applications, Installation, Built in function. Second day is matrix & vector operations, Programming in SCILab. Third day is conditional statements (IF, Switch/Select statements), iterations, loop control statements. The fourth day is plotting (trigonometric functions), waveforms, 2d plot, bode plot, bar & pie charts. The fifth day is 3d plot, xcos simulation. The sixth day is ATOMS (Automatic Modulo Management for SCILab), Image read (Colour, Crop, Noise) and GUI (Graphical User Interface) and finally valedictory.
