Activity Description:

As a part of student activity, department organized an awareness program on IEEE membership. Mr. P. Sumanth Kumar IEEE student Chair shared his views on IEEE membership and benefits. In his words..... I believe professionals in technology fields should join IEEE to help themselves and the community. With competition for the best jobs increasing every year, companies value employees who have relationships with the local community and hone their technical skills outside of work hours. IEEE members are uniquely positioned to provide the innovative solutions needed in technical industries going forward. In addition to the human networks that can be tapped for advice or assistance, there are many web resources with special access just for members. I have been very lucky to represent me as student chair by volunteering for various activities organized by Ananthapuramu and Hyderabad subsections. The people I meet in volunteer activities make the effort well worth it.
