The faculty of Humanities & Sciences attended the programme and made the event colourful.</p> <p>Every year, the "Pi Approximation Day is observed on July, 22 (22/7 in the day/month format), since the fraction 22/7 is a common approximation of π. The day is celebrated worldwide on July 22 to mark the 'Pi' where the denominator 7 represents the 7th month, i.e., July and numerator 22 represents the 22nd day of the month. 'Pi' is one of the most widely recognized mathematical constant. The 'Pi' approximation day is closely related to the 'Pi" day which is celebrated on March 14 every year (representing value 3.14).</p>
