Kadapa.

Respected Sir,

Sub: KSRMCE - (Department of H&S) - Permission to conduct Guest lecturer on world Ozone day - Requested - Reg.

It is being brought to your kind notice that, With reference to the cited, the Department of H&S is planning to organise guest lecturer on world ozone day for B.Tech students on 16th September 2021 in online mode. In this regard I kindly request you to grant permission to conduct guest lecturer, for which kind of act I would be grateful to you sir.

Thanking you sir,

Yours Faithfully

[Signature]

ACTIVITY REPORT

Guest lecture

On

"Ozone on the environment"

16th September, 2021

Target Group	:	Students & Faculty
Details of Participants	:	5 Faculty and 75 Students
Co-coordinator(s)	:	Dr. K. Venkata Ramana M.Mary Jasmine
Organizing Department	:	Department of Humanities & Sciences
Venue	:	Online mode (Google meet)

Description :

One-day guest lecture on "Ozone on the environment" was organized by the Department of H & S, KSRMCE, Kadapa on 16th September, 2021 from 6:30 pm to 08:00 pm. The aim of the guest lecture was to create awareness among students on importance of environment and how to protect ozone hole. The chief guest of the programme was Dr. M. Vara Lakshmi, Asst. prof, SVEC, Tirupathi. The resource person explained awareness on Ozone on the environment and how to protect ozone hole in present scenario. She shared her knowledge with the students about various environment topics like Ozone layer depletion, Green house effect, Montreal protocol etc., Dr. I. Sreevani, HOD, H&S and Convener of the program, addressed the students on the importance and role of ozone on the environment and motivated students to develop interest in the field of green synthesis research area. The guest lecture was successful with the presence of the students and faculty. On the whole this program received a lot of positive feedback from students and it paved the way for students to upgrade their knowledge in field of environmental science

Ozone hole formation

O₃ = OZONE **Cl₂ = Chlorine**

- The ozone hole occurs mostly during spring season in Antarctic region (from September to early December) as strong westerly winds circulate around the continent and create an atmospheric container.
- During this period there will not be sunlight for three months and temperature is -80 degrees. This leads to formation of **Polar Stratospheric clouds (PSC)**.
- The PSC provide a platform for chemical reactions whose products will lead to ozone destruction.
