Department of Electrical and Electronics Engineering

Stake holder feedback analysis and action taken report on syllabus for the A.Y: 2014-2015

Students

- To include new courses in the fields of renewable energy sources.
- To conduct more workshops.
- To introduce more subjects related to GATE syllabus.

Teachers

- A course related to economics oriented is necessary for students' industrial working environment
- It is recommended that more hours would be included for English communication skills in the next revised regulation.
- To improve soft skills and better placements

Employers

- It is advised to include more elective courses for students flexibility.
- A course on quality management is expected from the curriculum.

Alumni

- More elective courses are required.
- Extend the library hours.

Parents

Student performance data to parents is expected in regular intervals.

Action Taken Report

- Contact hours for English communication skills are increased.
- R15 regulation curriculum has been framed according to GATE syllabus.
- Remedial classes are conducted for failed students and they are monitored.
- Workshops are organized to introduce latest softwares.

Department of Electrical and Electronics Engineering

Stake holder feedback analysis and action taken report on syllabus for the A.Y: 2015-2016

Students

- Wi-Fi facility in the campus is expected.
- Students participation in NSS activities are to be initiated.

Teachers

- To train the students in the areas of modeling, simulation and analysis software tools by conducting workshops.
- To introduce basic courses on Fundamentals of core programs and also basic exposure in fundamentals through laboratories.

Employers

Students need proficiency in C language coding.

Alumni

 5 Days class work is required for final year students in order to prepare competitive exam as well as effective implementation of the project work.

Parents

- GATE coaching for students are expected.
- Motivation and career guidance is required.

Action Taken Report

- Placements in core sector and software fields are planned.
- It is decided to provide WI-FI facilities in the campus.
- Planned for workshops in the areas of modeling and simulation
- C language code training is given separately under career guidance training program.
- To meet the parents expectations, GATE classes with senior faculty members are arranged.
- Motivation and career guidance is provided regularly for the benefit of students.
